

PREFACE TO ACTIVE PLAYLIST April 2011

On an approximately yearly basis, our Active play list is revised by eliminating the tunes that have not been called for in the past year, and by adding the new tunes that have been called for at least once after introduction. The aim is to keep the list at a manageable size (no more tunes than can be listed on one page), while providing enough tunes to keep our sessions enjoyable. The tunes vary in difficulty, from the fairly easy that help new members increase their confidence, to the more difficult, that challenge experienced fiddlers to expand their skills.

Every tune that has been played by the group is included in our tune library, which is maintained on CD by Ken Miller. Most of the tunes are also found in the Fiddler's Fakebook, and the New England Fiddler's Repertoire.

Alabama Waltz (D)	King of the Faeries (G)	SilverBells
